GREEN SHAPES

SOLUTION FOR POLLUTION

100% BIODEGRADABLE

Introduction

This is the best way to introduce with proud that our company (Iyyappa & Company India) has innovated the Agri compost products viz: Cups, Plates, Food containers and Rice Straws etc.

The project which brings the solution to many problems, like Soil, Water and Air pollution. First and foremost is that there is need for conservation of soil. So, there should be the need of solution for Pollution. Essentially all living beings depend on soil and water.

These products are made of Wheat bran, Banana leaf, coffee husk, lemon grass & Tea dust.

The products are

- 100% Natural
- Bio Degradable
- Fungus & Bacterial resistant's
- With stands up to 30 mins
